

351 – Child Health FY 17-18

A comparison of requirements between FY 16-17 and FY 17-18

FY 16-17	FY 17-18
Negotiable, must be reviewed and approved by the Program Contact	No Change
Local Health Department is required to provide or assure child preventive health care services, either by provision of clinical services, contracted services with another agency, or assurance of services by another agency through a MOU or Community Care Plan.	No Change
If the Local Health Department is providing child preventive healthcare services, a worksheet must be completed to list services to be delivered.	No Change
If the Local Health Department is assuring preventive health care services, a community advisory council (board) was required to review the plan.	Not required in FY 17-18.
If the Local Health Department is providing other services, a local council/board was required to review the data and establish child health priorities.	No Change
If the Local Health Department is providing other services, they must be evidence-based or evidence-informed.	No Change
If the Local Health Department is providing other services, a plan for each service will be completed, including a scope of work and anticipated outcomes worksheet, and a budget worksheet.	No Change
Ensure participation by at least one Child Health Program manager or staff member in C&Y-supported meetings.	No Change
Written policies on cultural competent services and linguistically appropriate materials.	No Change
Maintain a written agreement with Local Education Agency(ies).	No Change
Complete mid-year and end-of-year reports to document progress on meeting deliverables.	No Change
Worksheets and training webinars online.	No Change
