NCPHF was founded in 2003, initially to improve the capability of the Division of Public Health (DPH) to serve the public health needs of the state. We are an independent nonprofit foundation. We've had great success promoting dynamic partnerships between DPH and local service providers, community coalitions and statewide organizations. We have fostered investment in public health by a wide range of foundations, endowments and others—securing over **\$18.5 million** in support of public health programs including smoking cessation, improving women's and children's health, reducing the burden of cancer and advancing improved local environments for healthy eating and active living.

OUR VISION:

Fully-developed and adequate resources for all public health needs.

OUR MISSION:

To develop resources and otherwise support efforts to achieve the goals and objectives of public health in North Carolina.

RECENT HIGHLIGHTS:

Four million dollars in new funds secured for partners or programs supported by the Foundation over the past two years * More than 100 programs addressing over 50 public health issues supported by the Foundation since its inception * 100 NC counties served by one or more NCPHF programs last year
