

Medicare Diabetes Prevention Program (MDPP)

Enrollment Process Timeline

The timeline below can help MDPP supplier applicants track what happens after submitting an application.

What do MACs do?

- Process Medicare applications and claims for specific regions
- MDPP suppliers may need to enroll with more than one MAC if services are furnished in multiple MAC jurisdictions. This process is seamless when enrolling online through PECOS.
- [Learn about MACs](#) and the different regions they oversee

What is a development request?

- MACs release development requests when they require additional information or actions for enrollment applications
- To avoid development requests and additional delays, ensure all information and requirements are completed in the application prior to submission

How are fingerprints requested?

- Individuals with more than 5% ownership of the organization have to submit fingerprints once requested by the MACs
- For additional information or questions on why fingerprints are collected, see the [Fingerprinting FAQs](#)

What if enrollment is denied?

- If enrollment is denied due to non-compliance, MDPP supplier applicants can submit a corrective action plan (CAP) to their MAC within 30 days
- MACs determine if the CAP sufficiently addresses the issue
- Applicants can appeal the decision if denied again after submitting a CAP

Key tips before submitting an application

- Check the MDPP website at <http://go.cms.gov/mdpp> for helpful resources
- Conduct screenings of individuals that will be reviewed by CMS during the enrollment process (e.g., coaches, owners, and managing members)
- Conduct a thorough review of the enrollment application before final submission

“Who should I call?” CMS Provider Enrollment Assistance Guide

The following table outlines which phone calls should go to External User Services (EUS) and which calls should go to Medicare Administrative Contractors (MACs).

Topic	EUS	MAC
<p>1. Help completing an Internet-based PECOS enrollment</p> <p>For example:</p> <ul style="list-style-type: none"> • Provider Tony asks for help completing an Internet-based PECOS application. • Provider Sarah needs help starting a new Internet-based PECOS enrollment. 		X
<p>2. Forgotten User ID/ Password Inquiries</p> <p>For example:</p> <ul style="list-style-type: none"> • Provider Robert has forgotten his PECOS password. 	X	
<p>3. User gets system-error message while completing an Internet-based PECOS enrollment</p> <p>For example:</p> <ul style="list-style-type: none"> • Provider Angela is having issues accessing PECOS. She was kicked out of the application on Monday, and now the system won't let her back in. Angela keeps getting an error message that says the application is open by another user. 	X	
<p>4. System asks user to contact System Administrator</p> <p>For example:</p> <ul style="list-style-type: none"> • Provider John selects their approved PECOS enrollment with no tracking number for Illinois. When Provider John selects the start application button he receives the error "Error in Processing Contact System Administrator" • Provider Gina is getting the following error message "There was an error in processing your information, please contact system administrator," when selecting the "Start Application" button. 	X	
<p>5. User asks about the status of the enrollment application</p> <p>For example:</p> <ul style="list-style-type: none"> • Provider Joseph calls and needs information on his Medicare Enrollment, which he submitted to the Medicare Contractor. • Provider Julie wanted to know if an NPI is linked to a PTAN. 		X
<p>6. Making changes to existing applications</p> <p>For example:</p> <ul style="list-style-type: none"> • Provider Sue wants to correct an error she made on an application that she just submitted. 		X
