

## OBCM Recommendations

- Place responsibility for high risk pregnancy care management with PHPs. Flow all funding for high risk pregnancy care management through PHPs
- Require that PHPs contract for OBCM services with LHDs for 2 years
- Require that PHPs contract with LHDs at an amount that is at least the same as what they receive today
- Discussion: Risk Stratification/Patient Identification
- Discussion: Documentation Platform

## CC4C Recommendations

- Place responsibility for CC4C care and case management with PHPs. Flow all funding through PHPs
- Require that PHPs contract for LHDs for provision of social service coordination for CC4C for 2 years; PHPs manage high-risk medical
- Require that PHPs contract with LHDs at an amount that is at least the same as what they receive today
- Discussion: Risk Stratification/Patient Identification
- Discussion: Documentation Platform
- State continues to pay LHDs directly for any carved-out populations
